

Specifications

Property	Value
Thickness	30um±2um, 35um±2um, 40um±2um, 45um±2um
Adhesive Strength	250g±50g/25mm, 350g±50g/25mm, 400g±50g/25mm
Bottom Sheet Adhesive Strength	600±50g/25mm
Vertical Stretching Strength(MPA)	> 20
Lateral Stretching Strength(MPA)	> 12
Vertical Fracture Elongation Rate(%)	> 200
Lateral Fracture Elongation Rate(%)	> 250
Initial Adhesive Strength(G/IN2)	≥ 12
No. of Layers	30 or 60
Persistent Adhesivity(MIN)	600min
Heat Resistance	60°C--80°C/48hours
Anti-Aging Performance	240 H

Description

Sticky mat is composed of 30 or 60 layers of polyethylene film. Each layer is 100% coated with a consistent application of adhesive. The backing of the mat is coated with an adhesive that adheres to floors, but can be easily changed without leaving a residue.

Usage

Sticky mats, also known as clean room mats, designed to keep sanitary-sensitive places clear of substances that could compromise the need for sterility. They are excellent for construction sites, labs, hospitals, pharmacies, or any other area where you want to reduce the amount of dust transferred from people or carts entering.
